Red flags (1)

HIGH **The visa / entry validity date has passed**

Do not rely on this document for a new entry. A past validity date does not prove the historical document was forged or that existing residence permission has expired.

Government visa status: not checked

Official issuance, authenticity and work permission have not been confirmed. Opening the official page does not change this status.

Official source	Kuwait Ministry of Interior — Residency visa services
Official link	https://www.moi.gov.kw/main/eservices/residence

1. Open the official MOI residency services page and choose the visa-status service for your document type.
2. For a work or entry permit, use the corresponding residency service; the tourist-visa service is not proof of work permission.
3. Enter the requested visa/application and holder details only on the official service. Login or additional verification may be required.
4. Compare the result with your document. If no suitable public lookup is available, ask MOI or the issuing sponsor for confirmation. This app does not retrieve or certify the government result.

Salary is not compared because a visa may not state it. Missing values remain unverified. A sponsor difference may reflect an intermediary and needs explanation.

Verification completeness

Limited evidence: 0 of 5 checks have conclusive comparisons.

This is evidence coverage, not the probability an offer is genuine. Conflicts need resolving.

Checks that could not run

- Government visa validity and authenticity were not checked. Complete the official lookup yourself.

- Visa-number issuance formats and security features have not been authenticated. A readable number is not proof of issuance.

- This module compares labelled offer fields; it does not run a full employer, agency or offer-letter investigation.
- Offer-to-visa comparison: no offer letter attached.
- PDF editing observations: not available for image or text uploads.

What to do

- Complete the official government lookup before paying or travelling.
- Confirm the holder and passport details against the original passport without sharing it unnecessarily.
- Ask the employer to explain any sponsor or job-title difference using independently sourced contact details.
- Use the offer-letter checker separately for employer, agency and recruitment-scam checks.

This is an automated risk assessment, not a legal verdict. A low score does not guarantee an offer is real - always confirm directly with the employer through contact details you find yourself. Online copy of this report: http://localhost:3000/report/6ae33e2c7ba27f7c5b33e19c
